Usage instruction

Handle be push out/ down- dispensing water on.
Handle be push in/ up- dispensing water off.
Pull to the right- cold water.
Pull to the left- hot water.

Maintain and Cleaning

(1)

Day to day basis: Drying our faucets with a soft cloth immediately after using them.

(2)

Spraying our faucets with mild cleaner (PH value = 7), followed by cleaning them with water then drying them with a dried-soft cloth.

(3)

Aerator which be installed at spout of faucet should be taken off and cleaned in case mineral deposits blocked the filtered net. It will cause the volume of water given decreased.
